Address

Fraunhofer Institut für Windenergie und Energiesystemtechnik
IWES
Am Seedeich 45
27572 Bremerhaven

Email: nathalie.mueller@iwes.fraunhofer.de

Research Topic

Project title: Condition Monitoring and fatigue
Related Work Packages: 5.6

Short Biography

2013-2014: Research Engineer in the field of the marine renewable energies, EIGSI, La Rochelle

2011-2012: MSc in Marine Renewable Energies, Heriot-Watt University, Orkney, Scotland

2007-2012: Engineering studies with a specialization in environment and energies, EIGSI, Sceaux, France

Publications

Current Research

Realization of innovative cross-system structural health/condition monitoring systems for wind and wave offshore farms together with the development of procedures for efficient and reliable data acquisition and evaluation.

This work will be done with the collaboration of the industrial partner Wölfel Beratende Ingenieure.

Supervisor(s)

Claus Kupferschmidt
